- **Complies with Australian Standards AS4285**
- **Savings on power bills** for a relatively small investment
- **Great value for money**
- **Available in two sizes** (250mm and 400mm) to suit all home applications

## Accessories

### Double Glazed Diffuser (2 layers)

Minimise any heat coming into your home during summer, and stop the heat escaping during winter

### Light Add-on Kit

Minimise the light fittings in your ceiling and locate them inside your skylight

### Skylight Fire Damper

The accessory you need to fire rate a skylight when penetrating fire rated ceiling

### Ventilation Add-on 250mm kit

A ventilation system that extracts stale moist air out of your home

### Ventilation Add-on 400mm kit

A ventilation system that extracts stale moist air out of your home

Product	Room size	Electric Comparison
250mm	3m x 3m	2 x 75W incandescent globe
400mm	5m x 5m	3 x 100W incandescent globe

### Prismatic Diffuser

Maximum spread of light output

### Slimline Diffuser

More suited for task lighting a particular area

### Translucent Diffuser

Provides a softer light where glare might be of a concern

### Decor Trim

Enhances the appearance of the curved prismatic diffuser

# Let natural light shine into your home

The Heavenly Intelligent Tubular Skylight offers the benefits of natural light in any room for a moderate price

Heavenly Intelligent provides you with our effective ray bending technology and it is the most affordable of our high quality tubular skylights. The intelligent technology allows for both low and high angled light to be absorbed - which means more light at any hour of the day.

The advanced **Heavenly Intelligent** laser light ray bending technology\* surpasses the amount of daylight hours provided by competitor's products into your home.

Manufactured in tough transparent polymers designed to stand up to extreme weather including hail storms, the skylight's all-in-one moulded roof flashings eliminate the possibility of leaks which can plague unsuspecting skylight owners.

\* ray bending technology not available on 400mm
